ADN CoE®

Please note that this training is a specialized procedural training provided by ADN CoE and conducted by leading experts in the field, including Dr. Antonio Mangieri, Dr. Ottavia Francesca Cozzi, Dr. Damiano Regazzoli, Dr. Martina Ruffo, Dr. Stefano Figliozzi and Dr. Bernhard Reimers, This training is accredited by Ethical Medtech and EACCME and it is independent of any other training offered by any relevant device company.

WARNING

Medical information is constantly evolving and being updated. Standard safety practices should be observed, and it should be acknowledged that changes in treatments and drug applications may be necessary in light of new research and clinical experiences. Readers are advised to verify the latest product information, dosage, administration methods, and contraindications provided by the drug's manufacturer regarding medications. Determining the best treatment and the correct drugs and dosages for each patient is the responsibility of the attending physician. The publisher and editors are not responsible for any harm or damage to patients or equipment that may arise from the use of this publication.

THE STRUCTURAL CLUB: FOCUS ON PFO & LAA CLOSURE

The Structural Club: Focus on PFO and LAA Closure" training is meticulously designed for interventional cardiologists seeking to enhance their expertise in closing patent foramen ovale (PFO) and left atrial appendage (LAA). This comprehensive program spans two intensive days and features a blend of didactic lectures, live case demonstrations, and hands-on training sessions.

Just as PFO and LAA closure procedures are crucial in managing specific cardiac conditions, this training covers a range of topics, including the importance of these closures, anatomical considerations, intraprocedural imaging techniques, and discussions on current devices and future trends.

The live case demonstrations provide a unique opportunity for participants to observe these procedures in real-time, gaining valuable insights into the decision-making process and procedural techniques. Additionally, hands-on sessions allow participants to practice these procedures under the guidance of experienced instructors, enhancing their skills and confidence.

The training also focuses on complications and troubleshooting, ensuring that participants are well-prepared to manage any challenges that may arise during these procedures. By the end of this training, participants will have acquired the knowledge and skills necessary to perform PFO and LAA closure procedures safely and effectively.

Join us for this immersive training experience and advance your expertise in PFO and LAA closure procedures.

10 JUNE 2024

HOTEL CANCELLATION POLICY

If you wish to cancel or modify your hotel booking, please do not contact the hotel directly, send us a notification by email at: info@adncente-rofexcellence.com Cancellations received earlier than 10 days before the beginning of the course are eligible for a full hotel refund. After that deadline, a one-night deposit will be deducted from your refund.

BOOKING POLICY

The deadline for hotel booking is 10 days before the course. Unfortunately, ADN CoE cannot guarantee room availability past that deadline. Bookings are made on a first-come, first-served basis. In case of non-availability, we shall do our best to re-accommodate you in a nearby hotel of equal standard.

Useful Information

Transfer

The transfer vehicle will accompany you during the training. The transfer vehicle will depart from the hotel to the hospital at 8:15 on 10-11 June 2024. Please make sure to board the transfer vehicle at 08:15.

Training Location

Humanitas Research Hospital
Via Alessandro Manzoni, 56, 20089 Rozzano MI, Italy
