Interventional Pulmonology

Interventional Pulmonology Bronchoscopy Training is a comprehensive program meticulously crafted for pulmonologists seeking to enhance their proficiency in advanced bronchoscopic procedures. This training course extends over two days and will be held at designated medical facilities, offering a blend of didactic sessions and practical hands-on training.

Pulmonary diseases encompass a wide spectrum of conditions, and bronchoscopy serves as a vital diagnostic and therapeutic tool. From investigating lung abnormalities to delivering targeted therapies, bronchoscopy plays a pivotal role in managing various pulmonary disorders. Interventional pulmonology focuses on employing minimally invasive techniques to diagnose and treat respiratory diseases, thereby improving patient outcomes.

Among the myriad procedures in interventional pulmonology, endobronchial ultrasound (EBUS), navigational bronchoscopy, and rigid bronchoscopy stand as essential interventions. EBUS facilitates real-time visualization of peripheral lung lesions, aiding in accurate sampling for diagnosis and staging of lung cancer. Navigational bronchoscopy assists in accessing difficult-to-reach areas of the lungs, guiding the insertion of tools for biopsies or treatments. Rigid bronchoscopy allows for larger interventions, enabling the removal of foreign bodies, management of airway strictures, and controlling bleeding.

Given the complexity and precision required in these procedures, our training program is tailored to equip pulmonologists with the necessary skills and knowledge. The curriculum covers in-depth theoretical insights into bronchoscopic techniques, instrumentation, anesthesia considerations, and patient selection. Practical sessions focus on live demonstrations, ensuring participants gain proficiency in performing these procedures proficiently and safely.

Our training faculty comprises experienced interventional pulmonologists who offer personalized guidance and mentorship throughout the program. The small group setting fosters interactive learning, allowing participants ample opportunities for skill refinement and troubleshooting.

This Interventional Pulmonology Bronchoscopy Training is a unique opportunity for pulmonologists seeking to expand their skill set in advanced bronchoscopic interventions, addressing the growing need for specialized care in managing complex pulmonary conditions.

Course Director

02 MAY 2024

08:30
09:00 Registration and Welcome Remarks

09:00 Introduction to Interventional Pulmonology and
10:00 Endobronchial Treatments

10:00 Diagnostic Techniques for Malignant and
11:30 Benign Airway Obstructions

11:30-12:00 Coffee Break

12:00 Patient Selection Criteria and Decision-making Processes
13:00

13:00-14:00 Lunch Break

14:00 Interactive Case Discussions - Part I
15:30

15:30-16:00 Coffee Break

16:00 Interactive Case Discussions - Part II
17:30

17:30 Q&A and Closing Remarks
18:00

03 MAY 2024

08:30 Live Case Demonstration -
10:30 Malignant Airway Obstruction Intervention

10:30-11:00 Coffee Break

11:00 Live Case Demonstration -
12:30 Benign Airway Obstruction Intervention

12:30-13:30 Lunch

13:30
15:00 Wrap-up and Review

15:00
16:30 Expert Analysis and Q&A Session

16:30
17:00 Closing Ceremony and Certificates Distribution

INSTRUCTORS

Prof. Dr. Erdogan CETINKAYA

Born in Elazığ in 1962, this accomplished professional completed medical school at Istanbul University in 1987 and specialized in Chest Diseases by 1994. With a career spanning decades, they held roles at various prestigious institutions, becoming the Dean of Istanbul Health Sciences University Hamidiye Faculty of Medicine. Renowned for research in interventional pulmonology and lung diseases, they've authored numerous publications in respected journals, hold a National Patent for Airway Stents, and actively contribute as an educator in the field.

Assoc. Prof. Dr. Demet TURAN

Assoc. Prof. Demet Turan, She graduated from Ankara University Faculty of Medicine in 1998. Between 2004 and 2009, she specialized in chest diseases at Istanbul Kartal Dr. Lütfi Kırdar Training and Research Hospital. She currently works at Istanbul Yedikule Chest Diseases and Chest Surgery Health Application and Research Center. She is a member of the Lung Health and Intensive Care Association, Turkish Thoracic Society, and Turkish Respiratory Research Association.

Assoc. Prof. Dr. Efsun Gonca CHOUSEIN

Assoc. Prof. Efsun Gonca Chousein, born in Antalya on June 9, 1974, graduated from Istanbul University Istanbul Faculty of Medicine in 1998. She specialized in chest diseases at Süreyyapaşa Chest Diseases and Chest Surgery Training and Research Hospital and Bezm-i Alem Valide Sultan Foundation Gureba Hospitals from 1999 to 2005. With a focus on interventional pulmonology, she has been working at SBÜ Yedikule Chest Diseases and Chest Surgery Training and Research Hospital since 2014. In 2022, she became an associate professor. Efsun Gonca Ugur Chousein is the responsible physician of the Bronchology Unit at SBÜ Yedikule. She is a member of several prestigious medical associations.

ACCOMMODATION

HILTON ISTANBUL BAKIRKOY

Hilton Istanbul Bakirkoy, located between Istanbul's Historic Peninsula and shopping centers, shopping streets, and Atakoy Marina, offers an excellent accommodation experience for both business and leisure travelers. The hotel provides top-class services, restaurants, a spa, and an outdoor pool, ensuring an exceptional stay. Situated a short drive away from CNR Expo and World Trade Center, the hotel is conveniently positioned for easy access to Istanbul's Asian side via Marmaray or Sea Bus.

Featuring floor-to-ceiling windows with sea or city views, the hotel offers 306 stylish rooms. It is 2 km away from Atakoy Marina and 4 km from Marmara Forum Shopping Center. With easy access to Istanbul's Historic Peninsula through Marmaray, and a distance of 7 km from CNR Expo Istanbul Exhibition Center and World Trade Center, the hotel is well-connected. It boasts a 2000-square-meter spa and fitness center, an outdoor and indoor pool, the Makri Restaurant offering all-day international cuisine with garden and pool views, an Executive Lounge located on the 11th floor with a dominant sea view, and the No 103 Bar serving premium beverages according to world standards. Additionally, the hotel offers a total of 22 meeting rooms, including a 1200-square-meter ballroom, and an outdoor event area with a capacity of 250 people.

HOTEL CANCELLATION POLICY

If you wish to cancel or modify your hotel booking, please do not contact the hotel directly, send us a notification by email at: info@adncenterofexcellence.com Cancellations received earlier than 10 days before the beginning of the course are eligible for a full hotel refund. After that deadline, a one-night deposit will be deducted from your refund.

BOOKING POLICY

The deadline for hotel booking is 10 days before the course. Unfortunately, ADN CoE cannot guarantee room availability past that deadline. Bookings are made on a first-come, first-served basis. In case of non-availability, we shall do our best to re-accommodate you in a nearby hotel of equal standard.

Useful Information

Transfer

The transfer vehicle will accompany you during the training. The transfer vehicle will depart from the hotel to the hospital at 8:15 on 02-03 May 2024. Please make sure to board the transfer vehicle at 08:15.

Training Location

YEDIKULE CHEST DISEASES AND THORACIC SURGERY EDUCATION AND RESEARCH HOSPITAL
Kazlıçeşme, Kazlıçeşme Mh Belgrat Kapı yolu Cad, D:1, 34020 Zeytinburnu/İstanbul
