VARICOSE VEINS MANAGEMENT MASTERCLASS

Scientific Agenda & Course Information

Course Name	: Varicose Veins Management Masterclass
Format	: Lectures & Live Case Observation
Duration	: 1 Day
Language	: English
Venue	: ADN CoE®-designated clinical training hospital / training venue
Organizer	: ADN CoE® – ADN Center of Excellence

COURSE OVERVIEW

This Masterclass provides a comprehensive scientific agenda and essential course information for the management of varicose veins. It is designed to deliver focused, high-level education combining up-to-date theoretical knowledge with live case observation, allowing participants to enhance their clinical skills in the diagnosis and treatment of chronic venous disease.

IMPORTANT NOTE ON CLINICAL FORMAT

This Masterclass is based on live case observation and expert-led discussions. The program includes theoretical sessions in the morning and live clinical cases in the afternoon. The final program, case sequence, and timing may be subject to change depending on patient eligibility, clinical indications, and hospital scheduling.

IMPORTANT TRAVEL NOTICE

As this program is based on real clinical cases, course dates or timing may occasionally need to be adjusted due to case availability and hospital-related factors. Participants are therefore strongly advised to purchase refundable, flexible, or changeable flight tickets and accommodation arrangements whenever possible. ADN CoE® cannot be held responsible for non-changeable travel arrangements.

EDUCATIONAL DISCLAIMER

The content and clinical cases presented in this program are intended solely for professional educational purposes. Clinical decisions, patient management, device selection, and treatment remain the responsibility of the treating physician and local institution. ADN CoE® and the faculty are not responsible for clinical decisions made outside the scope of this educational activity.

PATIENT CONFIDENTIALITY

All live cases are conducted in accordance with patient privacy and confidentiality regulations. Photography, video recording, screenshots, or any form of media capturing identifiable patient information or clinical content is strictly prohibited unless expressly authorized by the host institution and permitted under applicable regulations.

ACCREDITATION & COMPLIANCE

This course is organized in accordance with ADN CoE® educational standards and applicable ethical, institutional, and patient safety requirements. Any accredited CME/CPD credits applicable to a specific edition of the program will be communicated separately.

SCIENTIFIC AGENDA

VARICOSE VEINS MANAGEMENT MASTERCLASS

LEARNING OBJECTIVES & CLINICAL FOCUS

By the end of this Masterclass, participants will be able to:

- | | | | |
|--|--|---|---|
| <p>01</p>  | <p>Understand the anatomy, pathophysiology and clinical evaluation of chronic venous disease (CEAP & VCSS).</p> | <p>06</p>  | <p>Recognize the role of compression therapy and post-procedural management in optimising outcomes.</p> |
| <p>02</p>  | <p>Perform and interpret duplex ultrasound examination for venous mapping and treatment planning.</p> | <p>07</p>  | <p>Identify and manage potential complications (EHIT, DVT, nerve injury, skin complications) and learn strategies for prevention.</p> |
| <p>03</p>  | <p>Learn patient selection and indications for different treatment modalities (EVLA/RFA, cyanoacrylate, MOCA, foam sclerotherapy).</p> | <p>08</p>  | <p>Develop an evidence-based treatment strategy tailored to patient-specific anatomy and disease severity.</p> |
| <p>04</p>  | <p>Observe endovenous thermal ablation techniques and understand key technical steps and tips.</p> | <p>09</p>  | <p>Discuss real clinical cases and share experience through faculty-led discussions.</p> |
| <p>05</p>  | <p>Understand the role of non-thermal treatment options, including cyanoacrylate closure, MOCA and ultrasound-guided foam sclerotherapy.</p> | <p>10</p>  | <p>Apply current guidelines and best practices for comprehensive and patient-centered varicose vein management.</p> |

VARICOSE VEINS MANAGEMENT MASTERCLASS

SCIENTIFIC AGENDA

1. OUR SCIENTIFIC FACULTY

- Internationally recognized experts in venous medicine and endovenous therapies.
- Faculty members combine clinical expertise with a strong educational focus.
- Evidence-based, practical and case-oriented teaching.
- Multidisciplinary perspective on comprehensive varicose vein management.

2. OUR CLINICAL TRAINING ENVIRONMENT

- ADN CoE collaborates with selected high-volume hospitals and affiliated centers.
- Live clinical cases in an active endovenous treatment setting.
- Exposure to a wide range of treatment modalities (EVLA/RFA, cyanoacrylate, MOCA, foam sclerotherapy).
- Patient-centered, high-standard clinical environment with experienced clinical teams.

3. PROGRAM PLANNING & CASE AVAILABILITY

- One-day program combining up-to-date theoretical knowledge with live case observation.
- Three live clinical cases are planned in the afternoon (subject to patient eligibility and hospital schedule).
- The final case sequence and detailed timing may vary depending on clinical indications and faculty availability.
- Participants will receive the final program details before the course.

IMPORTANT NOTE

ADN CoE programs are delivered in collaboration with affiliated centers of excellence and high-volume clinical partners. The final program, case sequence, and treatment modalities may be subject to change depending on patient eligibility, clinical indications, and hospital scheduling.

WHAT PARTICIPANTS CAN EXPECT

- ✓ Access to leading expert faculty
- ✓ Up-to-date scientific content
- ✓ Live case observation and detailed case discussions
- ✓ Practical insights into patient selection and treatment strategy
- ✓ Opportunity to discuss real clinical cases
- ✓ International networking

VARICOSE VEINS MANAGEMENT MASTERCLASS

1 DAY
PROGRAM

ENGLISH

LECTURES &
LIVE CASE OBSERVATION

SCIENTIFIC AGENDA

MORNING | LECTURES

08:30 – 09:00

Registration & Welcome Coffee

Participant registration and introduction to the Masterclass.

09:00 – 09:30

Lecture 1 – Understanding Chronic Venous Disease

Lower extremity venous anatomy • Hemodynamics • Venous reflux mechanisms
CEAP & VCSS classification.

09:30 – 10:15

Lecture 2 – Duplex Ultrasound & Venous Mapping

Systematic duplex assessment • Reflux identification
Pre-procedural venous mapping • Treatment planning.

10:15 – 10:30

Coffee Break

10:30 – 11:15

Lecture 3 – Endovenous Thermal Ablation

Principles of EVLA & RFA • Patient selection • Procedural planning
Technical considerations.

11:15 – 12:00

Lecture 4 – Non-Thermal Treatment Strategies

Cyanoacrylate closure • MOCA • Ultrasound-guided foam sclerotherapy
Selecting the appropriate treatment modality.

12:00 – 12:30

Lecture 5 – Complication Prevention & Management

EHIT • DVT • Nerve injury • Skin complications • Post-procedural surveillance.

12:30 – 13:30

Lunch Break

AFTERNOON | LIVE CLINICAL CASES

3 LIVE CASES

01

13:30 – 14:30

LIVE CASE 1

Patient Assessment, Duplex Mapping & Treatment Planning

- Live patient evaluation
- Ultrasound mapping
- Identification of reflux pattern
- Faculty-led treatment strategy discussion

02

14:30 – 15:30

LIVE CASE 2

Endovenous Ablation Procedure

- Live procedural observation
- Access and procedural workflow
- Device utilization
- Intra-procedural decision-making

15:30 – 15:45

Coffee Break

03

15:45 – 16:45

LIVE CASE 3

Varicose Vein Treatment & Adjunctive Techniques

- Live case observation
- Treatment strategy
- Ultrasound-guided procedural workflow
- Clinical decision-making and complication avoidance

16:45 – 17:15

Case Review, Q&A & Clinical Pearls

Faculty-led discussion of the three cases • Treatment selection
Alternative approaches • Key take-home messages

17:15

Closing & Certificate of Completion

PLEASE NOTE: Live cases are subject to patient eligibility, informed consent, clinical indications, hospital scheduling and faculty availability. Specific procedures approaches and treatment modalities may therefore vary on the course day.

VENUE

ADN CoE®

Affiliated Center of Excellence

Istanbul, Türkiye

Exact venue details will be shared with confirmed participants closer to the course date.

This course will be hosted at an ADN CoE-affiliated Center of Excellence selected according to clinical scheduling, case availability, and final operational planning.

IMPORTANT VENUE NOTE

- Final venue name and address will be communicated to registered participants before the course.
- The host site may vary depending on hospital scheduling and live case availability.
- Transportation, accommodation, and access information will be provided in advance.
- For venue assistance, please contact us.

Course Format: Live Case Observation & Case-Based Clinical Training

ADN CoE®

ACCOMMODATION

5-Star Partner Hotel Options Based on the Final Clinical Venue

VENUE-BASED HOTEL SELECTION

As the clinical training for this Masterclass is based on live cases, the affiliated hospital / Center of Excellence may vary depending on patient scheduling, case availability and operational requirements.

Hotel placement will be arranged according to the final confirmed clinical venue. Final hotel details will be shared with confirmed participants prior to the course.

ACCOMMODATION IS ARRANGED AT SELECTED 5-STAR PARTNER HOTELS based on the final clinical venue and availability.

All prices are for **2 nights** stay and include breakfast and applicable taxes.

ACCOMMODATION OPTION	DESCRIPTION	PRICE (2 NIGHTS)
 Single Occupancy – Standard Room	Comfortable standard room for single occupancy.	€550 Starting from
 Single Occupancy – Suite Room	Spacious suite room for single occupancy with separate living area.	€1,000 Starting from
 Double Occupancy – Standard Room	Comfortable standard room for double occupancy.	€650 starting from per room
 Double Occupancy – Suite Room	Spacious suite room for double occupancy with separate living area.	€1,100 starting from per room

IMPORTANT ACCOMMODATION NOTICE

Because the final clinical venue may vary depending on live case scheduling and hospital availability, participants are strongly advised to choose **flexible or refundable travel arrangements** whenever possible.

ADN CoE ACCOMMODATION POLICY

By booking accommodation through ADN CoE, you agree to our accommodation terms and cancellation policy. Detailed policy information will be provided upon request and before confirmation.

USEFUL INFORMATION

For International Participants

ADN CoE®
CENTER OF EXCELLENCE

Please review the following practical information before your training.

1 BEFORE YOU TRAVEL

- Course Language: English

- Invitation letters and official participation documents are available upon request for visa or institutional purposes.

- Participants are strongly advised to purchase refundable or changeable flight tickets and flexible accommodation whenever possible.

- We recommend arriving in Istanbul at least one day before the course.

- Travel and medical insurance are recommended.

2 WHAT ADN CoE PROVIDES

- Personalized surgical scrubs and caps will be provided.

- Scrubs are prepared according to your size and name; there is no need to bring your own surgical attire.

- Course materials and participant badge.

- Invitation letter / supporting documents upon request.

- Certificate of Completion.

3 DURING THE TRAINING

- Dress code during the non-clinical course program: Business Casual.

- For clinical and operating room activities, ADN CoE-provided scrubs should be used.

- Full participation in the program is required in order to receive the certificate.

- Participants must comply with hospital, infection-control, and confidentiality rules.

- Photography or video recording in clinical areas is not permitted unless specifically authorized.

4 OPTIONAL SERVICES

- Accommodation can be arranged upon request.

- Transfer services can be arranged upon request.

- Participants may also arrange their own accommodation and transportation independently.

- Final venue and logistics details will be shared with confirmed participants prior to the course.
