ADVANCED HoLEP & ThuLEP MASTERCLASS

Scientific Agenda & Course Information

Course Name:	Advanced HoLEP & ThuLEP Masterclass
Format:	Live Case Observation & Case-Based Clinical Training
Duration:	2 Days
Language:	English
Venue:	ADN CoE-designated clinical training hospital / training venue
Organizer:	ADN CoE – ADN Center of Excellence

ADN CoE®
ADN CENTER OF EXCELLENCE

COURSE OVERVIEW

This booklet contains the scientific agenda and essential course information for the Advanced HoLEP & ThuLEP Masterclass. The program is designed to provide participants with focused educational exposure to laser enucleation techniques through live surgical case observation, faculty-led case discussion, and clinical decision-making review.

IMPORTANT NOTE ON CLINICAL FORMAT

This Masterclass is based on live surgical case observation and case-based clinical discussion. The final program, case sequence, and timing may be subject to change depending on patient eligibility, patient consent, clinical priorities, hospital operating room scheduling, and faculty availability.

IMPORTANT TRAVEL NOTICE

As this program is based on real clinical cases, course dates or timing may occasionally be adjusted due to case scheduling and hospital-related factors. Participants are therefore strongly advised to purchase refundable, flexible, or changeable flight tickets and accommodation arrangements whenever possible.

EDUCATIONAL DISCLAIMER

This scientific and clinical content of this booklet is intended solely for educational purposes. Clinical decisions, patient management, and procedural applications remain the responsibility of the treating physician and host institution. ADN CoE and the faculty are not responsible for clinical decisions made outside the scope of this educational activity.

PATIENT CONFIDENTIALITY

Participants must strictly respect patient privacy and confidentiality. Photography, video recording, or distribution of patient-related content is not permitted unless expressly authorized by the host institution and permitted under applicable regulations.

ACCREDITATION & COMPLIANCE

This course is organized in accordance with ADN CoE educational standards and applicable ethical compliance requirements. CME accreditation status, where applicable, will be communicated separately.

ADVANCED HoLEP & ThuLEP MASTERCLASS

LEARNING OBJECTIVES & CLINICAL FOCUS

By the end of this Masterclass, participants will be able to:

- | | | | | | |
|-----------|---|---|-----------|--|--|
| 01 |  | Compare HoLEP and ThuLEP energy platforms and procedural strategies. | 06 |  | Understand intraoperative hemostasis strategies. |
| 02 |  | Review appropriate patient selection for endoscopic prostate enucleation. | 07 |  | Observe safe and efficient morcellation workflows. |
| 03 |  | Recognize key prostatic anatomical landmarks and the surgical capsule. | 08 |  | Identify common intraoperative challenges and complication-management strategies. |
| 04 |  | Understand enucleation strategies and apical dissection principles. | 09 |  | Review postoperative management, catheterization, discharge and follow-up. |
| 05 |  | Review techniques for sphincter preservation and continence optimization. | 10 |  | Analyze operative decision-making through real clinical cases and faculty discussions. |

CLINICAL TRAINING FORMAT

Actual procedures observed may vary depending on patient eligibility, clinical indication, consent, and operating room scheduling.

All faculty members disclose relevant financial or commercial relationships in accordance with applicable educational standards.

—•• SCIENTIFIC AGENDA —••

ADN CoE®
ADN CENTER OF EXCELLENCE

SCIENTIFIC FACULTY

International Expert Faculty & Center of Excellence Network

1. OUR SCIENTIFIC FACULTY

- Internationally recognized expert faculty in endourology and minimally invasive urology
- Clinically active educators with extensive procedural experience
- Evidence-based teaching focused on real-world surgical decision-making
- Multidisciplinary perspective aligned with contemporary urologic practice

2. OUR CLINICAL TRAINING NETWORK

- ADN CoE collaborates with selected high-volume tertiary hospitals and affiliated Centers of Excellence
- Clinical training pathways are structured to provide advanced exposure in established surgical environments
- Programs are designed around quality, patient safety, and educational value
- Final clinical venue is determined according to the live case program and operational planning

3. PROGRAM PLANNING & FACULTY AVAILABILITY

- Course dates and the final scientific faculty lineup may vary according to faculty schedules
- Live case-based programs are planned in accordance with patient eligibility, consent, and hospital operating room schedules
- Faculty participation and the final program structure are confirmed for each course date individually
- Participants will receive the final course information before the program

IMPORTANT NOTE

ADN CoE programs are delivered in collaboration with affiliated Centers of Excellence and high-volume clinical partners. Final course dates, clinical venue, and scientific faculty are confirmed according to live case availability, hospital operational planning, and faculty schedules.

WHAT PARTICIPANTS CAN EXPECT

- ✓ Access to leading expert faculty
- ✓ High-volume clinical learning environments
- ✓ Case-based discussion and real-world insights
- ✓ Structured, premium international training experience

ACCOMMODATION

5-Star Partner Hotel Options Based on the Final Clinical Venue

VENUE-BASED HOTEL SELECTION

As the clinical training for this Masterclass is based on live cases, the affiliated hospital / Center of Excellence may vary depending on patient scheduling, case availability and operational requirements.

Hotel placement will be arranged according to the final confirmed clinical venue. Final hotel details will be shared with confirmed participants prior to the course.

ACCOMMODATION IS ARRANGED AT SELECTED 5-STAR PARTNER HOTELS based on the final clinical venue and availability.

All prices are for **2 nights** stay and include breakfast and applicable taxes.

ACCOMMODATION OPTION	DESCRIPTION	PRICE (2 NIGHTS)
 Single Occupancy – Standard Room	Comfortable standard room for single occupancy.	€550 Starting from
 Single Occupancy – Suite Room	Spacious suite room for single occupancy with separate living area.	€1,000 Starting from
 Double Occupancy – Standard Room	Comfortable standard room for double occupancy.	€650 starting from per room
 Double Occupancy – Suite Room	Spacious suite room for double occupancy with separate living area.	€1,100 starting from per room

IMPORTANT ACCOMMODATION NOTICE

Because the final clinical venue may vary depending on live case scheduling and hospital availability, participants are strongly advised to choose **flexible or refundable travel arrangements** whenever possible.

ADN CoE ACCOMMODATION POLICY

By booking accommodation through ADN CoE, you agree to our accommodation terms and cancellation policy. Detailed policy information will be provided upon request and before confirmation.

USEFUL INFORMATION

For International Participants

ADN CoE®
CENTER OF EXCELLENCE

Please review the following practical information before your training.

1 BEFORE YOU TRAVEL

- Course Language: English

- Invitation letters and official participation documents are available upon request for visa or institutional purposes.

- Participants are strongly advised to purchase refundable or changeable flight tickets and flexible accommodation whenever possible.

- We recommend arriving in Istanbul at least one day before the course.

- Travel and medical insurance are recommended.

2 WHAT ADN CoE PROVIDES

- Personalized surgical scrubs and caps will be provided.

- Scrubs are prepared according to your size and name; there is no need to bring your own surgical attire.

- Course materials and participant badge.

- Invitation letter / supporting documents upon request.

- Certificate of Completion.

3 DURING THE TRAINING

- Dress code during the non-clinical course program: Business Casual.

- For clinical and operating room activities, ADN CoE-provided scrubs should be used.

- Full participation in the program is required in order to receive the certificate.

- Participants must comply with hospital, infection-control, and confidentiality rules.

- Photography or video recording in clinical areas is not permitted unless specifically authorized.

4 OPTIONAL SERVICES

- Accommodation can be arranged upon request.

- Transfer services can be arranged upon request.

- Participants may also arrange their own accommodation and transportation independently.

- Final venue and logistics details will be shared with confirmed participants prior to the course.
